

循环再生清洗线 Recycling & Washing Line

通过多年深入了解废旧塑料产品特性结合客户的需求, 威斯肯已研发出一系列高效率、低能耗、性能稳定的再生清洗方案。广泛应用于PE农膜、牛奶瓶、PET瓶、编织袋和电子回收硬杂料等。为满足更多客户需求, 我们将设备生产进行模块设计: 破碎模块、摩擦清洗、分离漂洗、脱水烘干、自动称重收集系统、智能电控系统。

With a deep understanding of waste plastics and customers' demands, Wiscon has developed a series of plastic recycling and cleaning solutions featuring high efficiency and stable performance. It is commonly used in handling **PE agricultural films, milk bottles, PET bottles, woven bags and metal recovery from electronics**. We developed various modules, such as, crushing, friction washing, separation rinsing, dehydration drying, automatic weighing collection and intelligent control.

产品特性 | Features

- 设计产能: 500-5000kg/h
- 先进的循环理念和模块化设计
- 为客户带来更高的价值, 同时保护环境
- Design capacity: 500-5000kg/h
- Advanced recycling concepts and modular design
- Brings great value-added products to customers

模块化破碎生产线 Modular Crushing Line

根据回收物料的材质和处理要求, 进行模块组合一级撕碎、分选、二级细碎、收集系统等工艺。设备采用整体加工制作, 确保加工精度, 提高设备稳定性, 增加使用寿命, 降低维护成本。真正实现高效、节能、环保。广泛适用于塑料再生, 固废回收等行业。

No matter what your material composition and required processes are, our modular solution is comprised of primary shredding, sorting, secondary fine crushing, collection system, etc. To ensure high machining accuracy, reliability and long service life, all equipment adopts innovative whole-part machining. Besides providing optimized solutions, we realize high efficiency, energy saving and environmental protection.

技术指标 | Technical Details

- 应用范围: 塑料胶头、塑料管材、塑料薄膜、工业废纸、木制产品、铜铝制品等
- 设计产能: 300-5000kg/h
- 成品尺寸: 10-100mm
- 操作人数: 1-2人
- Application: plastic lumps, pipes & films, industrial waste paper, wood waste, aluminum & copper material.
- Design capacity: 300-5000kg/h
- Output size: 10-100mm
- Number of machine operators: 1-2
